

# Thesis Topics Distribution of Postgraduate Students

\*\* Specify your choices among 1 (best choice) to 10 (least choice) by the side of each category.

Your Choice	Category	Thesis Topics
	A	[Medical] Image Processing
	B	AI-based Heuristics, Planning, Scheduling, and Optimization; Deep Learning-based Natural Language Processing (NLP)
	C	Distributed [Operating] System; Big data; Data Science
	D	Fault Tolerant Cloud Computing; Embedded System/ Software; High Performance and Reliable Computing
	E	Image Processing -- Reconstruction, Segmentation, and Enhancement
	F	IOT (Internet of Things); CPS (Cyber Physical System); Software Engineering; Computer Network
	G	Optimization
	H	Social Media Mining; Natural Language Processing; Machine Learning Applications on Text Mining
	I	Software Reliability, Costing, and Release Time; Neural Network (NN)
	J	Wireless Networks
